01

WHO WE ARE

BRAND IDENTITY

Respawn Media is Chennai's only creative, social media-first agency. We exist at the intersection of **content production**, strategic thinking, and cultural fluency — helping businesses stop blending in and start being brands people actually follow, share, and buy from.

We help businesses **become brands on the internet** — with a perfect mix of **content + strategy + ads**.

Our work spans social media management, content production, videography, photography, campaign strategy, and paid media. We're not a generic agency — we're a creative studio that thinks in memes, speaks in Hinglish, and measures everything in actual results.

01 CREATIVE-FIRST We lead with the idea. Strategy and execution follow — not the other way around.	02 CULTURALLY FLUENT We live on the internet. We know what's trending, why it's trending, and how to use it.	03 RESULTS-DRIVEN Aesthetics matter. But so do numbers. We make things that look great and actually work.	04 ANTI-CORPORATE No jargon, no fluff, no decks full of buzzwords. We're real people building real brands.
---	---	--	---

02

VISUAL IDENTITY

THE LOGO

The Respawn logo is a bold, condensed wordmark inside a double-border rectangular frame. The "RE" sits large above "SPAWN" — split by a ruled line. The double-border creates a stamp-like, editorial authority. Think record label. Think streetwear. Think agency.

WHITE VERSION — ON DARK

BLACK VERSION — ON LIGHT

- White logo on black or very dark backgrounds
 - Black logo on white or off-white backgrounds
 - Maintain the double-border rectangle — never use wordmark alone
 - Use as watermark in the corner of all content (top-right preferred)
 - Keep the logo monochrome — only black or white, never teal or colored
 - Preserve all proportions — scale uniformly only
- Don't stretch, squish, or distort the logo
 - Don't rotate or flip the logo
 - Don't place the logo on a busy, low-contrast background
 - Don't use the logo in teal, gray, or any off-brand color
 - Don't add drop shadows, glows, or effects to the logo
 - Don't recreate or modify the logo from scratch — always use the master file

CLEAR SPACE RULE

Always maintain a clear space around the logo equal to at least the height of the "RE" letterforms. Nothing — text, images, graphics — should enter this protected zone. Minimum usable size is **48px height** for digital, and **15mm height** for print.

03

VISUAL IDENTITY

COLOR PALETTE

The palette is intentionally minimal. Black dominates, white gives it breath, and teal is the single accent that makes everything pop. When in doubt — go darker.

PITCH BLACK #080808 PRIMARY BACKGROUND	PURE WHITE #FFFFFF PRIMARY TEXT · LOGO (WHITE)	RESPAWN TEAL #16C4BA SIGNATURE ACCENT	OFF-WHITE #F5F4F0 LIGHT MODE BG	DARK SURFACE #141414 CARDS · OVERLAYS

Color Usage Rule: The teal accent should never dominate. Use it for one element per design — a stripe, a date, a highlighted word, a border. The more restraint you show with the teal, the more impact it has. When everything is teal, nothing is.

Note: Hex values for teal are extracted from existing content. Confirm the exact value with your design files before producing new brand assets.

COLOR HIERARCHY ON POSTS

DARK MODE POSTS

Black background (#080808) + White headline text + Teal as single accent element. Use for editorial, tribute, and news-style posts.

LIGHT MODE POSTS

Off-white (#F5F4F0) or pure white background + Black headline text + Teal stripe or accent. Use for educational, carousel, and campaign posts.

CLIENT WORK

Client's brand colors take center stage. Apply Respawn's logo watermark in the corner. Never override a client's palette with Respawn's teal.

Typography is the loudest thing in a Respawn post. The headline IS the design. Big, condensed, heavy — always lowercase, always commanding. Body text stays clean and restrained to let the headline breathe.

DISPLAY / HEADLINE

Heavy Condensed Sans
Lowercase · Tight Leading

**moment
marketing**

Used for post headlines, section titles, and any oversized display text. Set in the heaviest/black weight of a condensed grotesque. Leading should be tight (0.9–1.0). Always lowercase. Text should feel like it's about to run out of space — that's the aesthetic.

DISPLAY / LOGO STYLE

All Caps Display
Used for Logo & Headers

RESPAWN

The all-caps display style mirrors the logo letterforms. Used sparingly for section identifiers, brand callouts, and cases where the logo DNA needs to carry into headlines.

ACCENT / LABEL

Condensed Bold · All Caps
Used with Teal Color

MOMENT MARKETING · SOCIAL MEDIA AGENCY

For tags, labels, category headers, and caption identifiers. Always in teal. All-caps with generous letter-spacing (8–12%). Condensed bold weight.

BODY / CAPTIONS

Clean Sans-Serif
Regular & Medium weights

We help businesses become brands on the internet — with a perfect mix of content, strategy, and ads. No fluff. No corporate speak. Just work that actually moves the needle.

Body copy for captions, descriptions, slide text, and anywhere extended reading is required. Clean, modern, high readability. Regular (400) for body, Medium (500) for emphasis.

Font Identification Note: The exact font families used in Respawn's posts are unconfirmed. Based on visual analysis — the display font appears to be a heavy condensed grotesque (closest matches: **Barlow Condensed Black** or **Alternate Gothic No. 3**). The body font matches **DM Sans** or similar. Please confirm with your design team and update this section with the exact licensed font names.

05

DESIGN SYSTEM

VISUAL LANGUAGE

Respawn's visual identity has two modes — **Dark Editorial** and **Light Clean**. Both are valid. Both carry the brand. The switching keeps the feed dynamic and prevents monotony.

DARK EDITORIAL MODE

SCIENTISTS
DISCOVER

a new colour called "Olo"

Black background. White oversized type. Single teal accent. High contrast. Immediate impact.

LIGHT CLEAN MODE

MOMENT
MARKETING

it all matters in that one moment.

Off-white background. Dark type. Teal stripe as scene divider. Clean, editorial, airy.

— THE TEAL STRIPE A horizontal teal bar used as a design divider, section separator, or mid-post accent. Always full-width. Never decorative — it always separates something meaningful.	RE LOGO WATERMARK The logo appears in the top-right corner of all Respawn-produced content. White version on dark posts, black version on light posts. Small but consistent.	AA OVERSIZED TYPE The headline often breaks the grid, runs off edges, or dominates 70–80% of the frame. Text-as-design is core to the Respawn aesthetic. Let the type be loud.
TEXTURE BACKGROUNDS For dark posts, a subtle stone or concrete texture overlays the black background. It adds depth without competing with the content. Never use colored textures.	BLACK & WHITE PHOTOGRAPHY Portrait and tribute photography is always desaturated to black and white. This creates gravitas and visual consistency across editorial-style posts.	↓ DIRECTIONAL ARROWS Thin, curved arrows used to point at details, highlight an element, or create a sense of "look here." Used sparingly — one per post maximum.

Respawn sounds like the smartest person in the room who doesn't need to prove it. Confident, witty, culturally aware, and always a little bit irreverent. We know our stuff — and we make it interesting. No jargon. No padding. No corporate-speak.

BOLD & CONFIDENT We don't hedge. We don't say "perhaps" or "it seems like." We state things clearly and back them up. Opinions are welcome. Fence-sitting is not.	CULTURALLY FLUENT We're fluent in internet. We use Hinglish naturally, reference memes and moments without forcing it, and know the difference between cringe and clever.
EDUCATIONAL BUT ENTERTAINING We teach things — marketing, branding, strategy — but we never lecture. The goal is for someone to learn something and immediately want to share it.	SELF-AWARE & WITTY We can make fun of ourselves. We don't take ourselves too seriously. A good joke lands better than a long explanation — and we know the difference.

VOICE IN PRACTICE — EXAMPLE CAPTIONS

✓ SOUNDS LIKE RESPAWN "The 5 people who can see the colour are not Team Respawn — can confirm."	✗ DOESN'T SOUND LIKE RESPAWN "Scientists have recently discovered a new colour called Olo that very few individuals can perceive."
✓ SOUNDS LIKE RESPAWN "When Sree Mishti Bhog asked us to craft a killer pre-launch campaign — here's what happened."	✗ DOESN'T SOUND LIKE RESPAWN "We are pleased to present our social media campaign services for Sree Mishti Bhog's store launch initiative."
✓ SOUNDS LIKE RESPAWN "Gone, but never forgotten. Piyush Pandey — the AdMan of India."	✗ DOESN'T SOUND LIKE RESPAWN "We regret to inform you of the passing of a distinguished figure in the advertising industry."
✓ SOUNDS LIKE RESPAWN "moment hai bhai, moment!"	✗ DOESN'T SOUND LIKE RESPAWN "Real-time marketing presents valuable opportunities for brand engagement."

All Respawn content falls under one of these five pillars. Every post should have a clear pillar. A healthy feed balances across all five — no single pillar should dominate for more than two consecutive posts.

01

INDUSTRY KNOWLEDGE

Marketing trends, advertising insights, moment marketing breakdowns. We educate our audience about the industry we live in — and make it interesting enough to share.

EDUCATIONAL

SHAREABLE

AUTHORITY

02

CLIENT WORK

Campaign showcases, behind-the-scenes peeks, client results. This is our portfolio in public. Show the process, the thinking, and the output — not just the final frame.

PORTFOLIO

PROOF

SOCIAL PROOF

03

CULTURE & VIRAL

Meme-integrated content, trending news with a marketing angle, relatable agency life moments. This is what makes the feed fun and keeps followers coming back.

ENGAGEMENT

REACH

RELATABLE

04

BTS & TEAM

The humans behind the brand. Team moments, behind-the-scenes shoots, agency culture. This is what makes Respawn a brand people trust, not just a handle they follow.

HUMANISING

08

BRAND RULES

DO'S & DON'TS

These rules protect the brand from inconsistency, dilution, and off-brand output. Anyone producing content for or about Respawn should follow these.

LOGO & IDENTITY

DO	DON'T
✓ Use the official logo files — white version and black version only	✗ Don't use the logo in teal, any gradient, or any color other than black or white
✓ Place the logo watermark in the corner of every piece of content we produce	✗ Don't add effects — shadows, glows, outlines — to the logo
✓ Maintain minimum clear space around the logo at all times	✗ Don't use the wordmark without the rectangular border frame
✓ Scale the logo proportionally — always uniform scaling	✗ Don't place the logo on low-contrast or visually cluttered backgrounds

COLOR & VISUAL

DO	DON'T
----	-------

✔ Lead with black or white as the dominant background color	✗ Don't use multiple accent colors — teal is the only accent
✔ Use teal for one accent element per design — not more	✗ Don't use gradients in Respawn's own brand posts
✔ Switch between dark and light mode to keep the feed dynamic	✗ Don't make the background any color other than black, white, or off-white
✔ Keep photography B&W for editorial, tribute, and portrait posts	✗ Don't use low-contrast color combinations that reduce legibility

TYPOGRAPHY

DO	DON'T
✔ Use the condensed heavy font for all post headlines — big and bold	✗ Don't use casual script or display fonts outside of client work
✔ Set headlines in lowercase for a modern, approachable feel	✗ Don't use more than 2 font families in a single post
✔ Keep leading tight on display text (0.9–1.05 line height)	✗ Don't set body text in the condensed display font — it's for headlines only
✔ Use the teal label style for category tags and eyebrow text	✗ Don't use text effects — 3D, shadows, outlines — on post headlines

VOICE & COMMUNICATION

DO	DON'T
✔ Write like a human who knows their stuff — confident, natural, direct	✗ Don't write in corporate or formal language — ever
✔ Use Hinglish where it feels natural — don't force English formality	✗ Don't use forced meme references that feel out of place
✔ Keep captions punchy — one hook, one idea, one CTA maximum	✗ Don't pad captions with filler words or unnecessary hashtag spam
✔ Reference culture, memes, and current moments when they're genuinely relevant	✗ Don't make promises or claims we can't back up — credibility over hype
